

# 2020 NEPCA Winter Conference—MGM Springfield

## Summary

More than 120 members and guests attended the recent 2020 NEPCA Winter Conference at the MGM Springfield. The day was filled with educational and informational presentations (and a bit of humor from Lenny Clarke). Engineers in attendance received certificates for 2.5 hours of education. Producers in the audience heard about new technologies in precast as well as new uses for fiber in precast concrete. And all attendees heard about how to build a culture of trust & accountability in their firms as well as how to overcome hesitation in achieving goals both personal and professional.

## Sponsors

Without the support of the following firms, the Winter Conference would not be possible:

[Advanced Concrete Technologies](#)

[ALP Supply](#)

[Capco Crane & Hoist, Inc.](#)

[Delta Engineers, Architects & Land Surveyors, PC](#)

[Gordon Corporation](#)

[GCP Applied Technologies](#)

[Jepco Sales, LLC](#)

[MAX USA Corporation](#)

[U.S.F. Fabrication, Inc.](#)

**Special thanks to [United States Foundries](#) for their sponsorship of lunch.**

The following firms (in addition to our Sponsors) were on hand exhibiting the latest products and technologies in the precast industry.
